

Food Safety & Security Services

Food Security Plan Development Service

Implementing the Facility Vulnerability Assessments (FVA) physical, programmatic and operational corrections requires organization and planning. New procedures and documentation must be created. Podojil & Associates professionals are Certified in Homeland Security and Terrorism. Podojil & Associates can provide templates and best practices that will streamline the process resulting in a Plan that can work. An outline of weaknesses identified in the FVA, as well as countermeasures to resolve them, will be provided.

As you are aware, protection of America's food chain has come to the public's attention in the recent news stories. Podojil & Associates can help your farm or retail store meet the newest demand for security of your products.

This professional service also helps you:

- Implement and execute the security plan.
- Coordinate the installation of required security protection equipment (i.e. CCTV systems, access control systems, and emergency evacuation alert systems).
- Establish relationships with local first responders such as police, fire, and hazardous material teams.
- Test your security plan with emergency response training scenarios and real life situations.
- Test and evaluate your current recall strategy.
